- 1 Peripheral chemosensitivity and central integration: Neuroplasticity of catecholaminergic cells under hypoxia
- 9 Oxygen sensors in the organism: Examples of regulation under altitude hypoxia in mammals
- 15 Functional consequences of acute and chronic hypoxia on respiratory and skeletal muscles in mammals
- 23 Oxygen sensing and signal transduction in metabolic defense against hypoxia: Lessons from vertebrate facultative anaerobes
- 31 Physiological strategies of oxygen transport in high altitude bird embryos
- 39 Mechanisms of ammonia excretion across fish gills
- 51 From anatomy to angiography: 164 years of crocodilian cardiovascular research, recent advances, and speculations
- 63 Evolutionary physiology: History, principles
- 81 A major second messenger mediator of *Electrophorus electricus* electric tissue is CaM kinase II
- 93 Eicosanoids mediate nodulation responses to bacterial infections in larvae of the silkworm, *Bombyx mori*
- 101 Fibre digestion in arthropods
- 111 Evolution of biometric indices and plasma metabolites during prolonged starvation in European sea bass (*Dicentrarchus labrax*, L.)
- 125 Co-ordination of the flight motor pattern with forewing stretch receptor stimulation in immature and mature adult locusts
- 131 Cholinergic and adrenergic tones in the control of heart rate in teleosts. How should they be calculated?
- 141 Responses of two semiterrestrial isopods, *Ligia exotica* and *Ligia taiwanensis* (crustacea) to osmotic stress
- 147 Comparative aspects of glucose tolerance in camels, sheep, and ponies
- 153 Calcium homeostasis and yeast phagocytosis in hemocytes of the colonial ascidian *Botryllus schlosseri*
- 159 Age influence on intestinal taurine transport in mice
- 165 High levels of ferritin and its iron in fetal bovine serum
- 171 Fluorescence studies of extracellular hemoglobin of *Glossoscolex paulistus* in met form obtained from Sephadex gel filtration
- 183 Effects of accelerated photoperiod regimes on the reproductive cycle of the female rainbow trout: I—Seasonal variations of plasma lipids correlated with vitellogenesis

Preface

N. Bindslev and E. Skadhauge	191	Intestinal NaCl and SCFA transport
Section A: Structure and Regulation of Epithelial Sodium Channels		
N. Voilley, A. Galibert, F. Bassilana, S. Renard, E. Lingueglia, S. Coscoy, G. Champigny, P. Hofman, M. Lazdunski and P. Barbry	193	The amiloride-sensitive Na ⁺ channel: From primary structure to function
O. Goldstein, C. Asher, E. Cragoe Jr., T. R. Kleyman and H. Garty	201	An aldosterone regulated chicken intestine protein with high affinity to amiloride
J. Pácha	209	Ontogeny of Na ⁺ transport in rat colon
M. Röpke, M. A. Unmack, N. J. Willumsen and O. Frederiksen	211	Comparative aspects of actions of a short-chain phospholipid on epithelial Na ⁺ channels and tight junction conductance
D. A. Klaerke	215	Regulation of Ca ²⁺ -activated K ⁺ channels from rabbit distal colon
Section B: Regulation of NA/Nutrient Cotransport		
N. Bindslev, B. A. Hirayama and E. M. Wright	219	Na/D-glucose cotransport and SGLT1 expression in hen colon correlates with dietary Na ⁺
L. K. Munck	229	Comparative aspects of chloride-dependent amino acid transport across the brush-border membrane of mammalian small intestine
M. L. Grøndahl and E. Skadhauge	233	Effect of mucosal amino acids on SCC and Na and Cl fluxes in the porcine small intestine
S. Nedergaard and A. P. F. Wolters	239	Na-uptake by the larval midgut of the <i>Cecropia</i> silkworm
Section C: Regulation of Electrolyte and Water Transport in Avian Hindgut		
V. S. Elbrønd, V. Dantzer, T. M. Mayhew and E. Skadhauge	243	Correlation of structure and function in the chicken lower intestine (coprodeum): A review
D. H. Thomas	247	The ecophysiological role of the avian lower gastrointestinal tract
S. S. Árnason	257	Aldosterone and the control of lower intestinal Na ⁺ absorption and Cl ⁻ secretion in chickens
G. Laverty	261	Transport characteristics of the colonic epithelium of the Japanese quail (<i>Coturnix coturnix</i>)
Section D: Chloride Channels and Mechanisms of Ion Secretion		
H. J. Binder, S. K. Singh, J. P. Geibel and V. M. Rajendran	265	Novel transport properties of colonic crypt cells: Fluid absorption and Cl-dependent Na-H exchange
R. Greger, M. Bleich, N. Riedemann, W. van Driessche, D. Ecke and R. Warth	271	The role of K ⁺ channels in colonic Cl ⁻ secretion
B. R. Grubb	277	Ion transport across the murine intestine in the absence and presence of CFTR
M. B. Hansen and E. Skadhauge	283	Signal transduction pathways for serotonin as an intestinal secretagogue
K. Fawcus, V. J. Gorton, M. L. Lucas and G. T. A. McEwan	291	Stimulation of three distinct guanylate cyclases induces mucosal surface alkalisation in rat small intestine <i>in vitro</i>
G. M. Jensen, M. L. Grøndahl, C. Grøndahl Nielsen, E. Skadhauge, J. E. Olsen and M. B. Hansen	297	Effect of ondansetron on <i>Salmonella typhimurium</i> -induced net fluid accumulation in the pig jejunum <i>in vivo</i>
J. E. Thorbøll and E. Skadhauge	301	The effect of histamine on ion transport in porcine jejunum
T. T. Tindholdt, M. B. Hansen, V. S. Elbrønd, M. Makinde, E. J. Westerberg and E. Skadhauge	305	The effect of α -trinositol on cholera toxin-induced fluid accumulation in pig (<i>Sus scrofa domestica</i>) jejunum <i>in vivo</i>
Section E: Regulation of Intestinal Ion Transport		
D. R. Brown and S. M. O'Grady	309	Regulation of ion transport in the porcine intestinal tract by enteric neurotransmitters and hormones
O. Lundgren and M. Jodal	319	The enteric nervous system and cholera toxin-induced secretion
S. Mihara, S. M. C. Cunningham,	329	Electrophysiology of neurochemically identified submucosal neurones of the guinea-

G. M. Lees and H. Higashi	pig intestine
J.-P. Timmermans, D. Adriaensen, W. Cornelissen and D. W. Scheuermann	331 Structural organization and neuropeptide distribution in the mammalian enteric nervous system, with special attention to those components involved in mucosal reflexes
Th. Frieling, C. Rupprecht, G. Dobrev and M. Schemann	341 Differential effects of inflammatory mediators on ion secretion in the guinea-pig colon
S. Leonhard-Marek and A. Dauschies	345 Electro- and transportphysiological changes in pig proximal colon during parasitic infection
M. O. Makinde, E. Umapathy, B. T. Akingbemi, K. T. Mandisodza and E. Skadhauge	349 Differential response of legumes and creep feeding on gut morphology and faecal composition in weanling pigs
G. T. Pearson, L. Thomsen, T. T. Tindholdt and E. Skadhauge	355 Synaptic communication between external and internal submucosal plexus neurones in the jejunum of the newborn pig?
P. T. Sangild, K. Holtug, L. Diernæs, M. Schmidt and E. Skadhauge	359 Birth and prematurity influence intestinal function in the newborn pig
L. Thomsen, G. T. Pearson and E. Skadhauge	363 Electrophysiological classification of submucosal plexus neurones in the jejunum of the newborn pig
Section F: Comparative Aspects of SCFA Supply and Absorption	
G. Gäbel and J. Sehested	367 SCFA transport in the forestomach of ruminants
M. Diener and E. Scharrer	375 Effects of short-chain fatty acids on cell volume regulation and chloride transport in the rat distal colon
I. Choshniak and R. Mualem	381 SCFA and electrolyte absorption in the colon of three rodent species
J. Sehested, J. B. Andersen, A. Basse, L. Diernæs, P. D. Møller, E. Skadhauge and O. Aaes	385 Feed-induced changes in transport across the rumen epithelium
P. D. Møller, L. Diernæs, J. Sehested, J. Hyldgaard-Jensen and E. Skadhauge	387 Absorption and fate of L- and D-lactic acid in ruminants
Section G: <i>In vivo</i> Characterization of SCFA Transport	
M. H. Montrose and S. Chu	389 Transepithelial SCFA gradients regulate polarized Na/H exchangers and pH microdomains in colonic epithelia
R. Busche, J. Bartels, A.-K. Genz and W. von Engelhardt	395 Effect of SCFA on intracellular pH and intracellular pH regulation of guinea-pig caecal and colonic enterocytes and of HT29-19a monolayers
G. Breves and R. Krumscheid	399 <i>In vitro</i> studies on transport and metabolism of short-chain fatty acids in pig hindgut
S. Chu and M. H. Montrose	403 Transepithelial SCFA fluxes link intracellular and extracellular pH regulation of mouse colonocytes
A.-K. Genz, R. Busche and W. von Engelhardt	407 Surface pH of the distal colonic epithelium of guinea-pigs
I. Novak, M. Hug and R. Greger	409 Intracellular pH in rat pancreatic ducts

Vol. 118A, No. 3

Special Section

C. Gerday	413 Life at extreme temperature
O. Holst, Å. Manelius, M. Krahe, H. Märkl, N. Raven and R. Sharp	415 Thermophiles and fermentation technology
B. Tolner, B. Poolman and W. N. Konings	423 Adaptation of microorganisms and their transport systems to high temperatures
D. A. Cowan	429 Thermophilic proteins: stability and function in aqueous and organic solvents
T. Fleming and J. Littlechild	439 Sequence and structural comparison of thermophilic phosphoglycerate kinases with a mesophilic equivalent
A. Sunna, J. Puls and G. Antranikian	453 Characterization of the xylanolytic enzyme system of the extreme thermophilic anaerobic bacteria <i>Thermotoga maritima</i> , <i>T. neapolitana</i> , and <i>T. thermarum</i>
M. Van de Casteele, C. Legrain, L. Desmarez, P. G. Chen, A. Piérard and N. Glansdorff	463 Molecular physiology of carbamoylation under extreme conditions: what can we learn from extreme thermophilic microorganisms?

- 475 Acidostable and acidophilic proteins: the example of the α -amylase from *Alicyclobacillus acidocaldarius*
- 481 Biosorption sites of selected metals using electron microscopy
- 489 Psychrophilic bacteria—molecular adaptations of membrane lipids
- 495 Molecular adaptations of enzymes from psychrophilic organisms
- 501 Microtubule assembly in cold-adapted organisms: functional properties and structural adaptations of tubulins from Antarctic fishes
- 515 Melatonin in non-mammalian vertebrates: physiological role in reproduction?
- 533 Background adaptation by *Xenopus laevis*: a model for studying neuronal information processing in the pituitary pars intermedia
- 551 Nongenetic variation, genetic-environmental interactions and altered gene expression. III. Posttranslational modifications
- 573 Is the flow in the giraffe's jugular vein a "free" fall?
- 577 Changes in forebrain and pituitary dopamine and serotonin contents of female *Fundulus* during its biweekly reproductive cycle
- 585 Ionic composition of urate-containing spheres in the urine of domestic fowl
- 589 Chemosensory adaptation in paramecium involves changes in both repellent binding and the consequent receptor potentials
- 599 Ouabain-sensitive Na^+ , K^+ -ATPase activity in toad brain
- 607 Measurement of elastic properties of *Xenopus* oocytes
- 615 Levels of biogenic amines in larvae and adults of the rat hookworm, *Nippostrongylus brasiliensis* (Nematoda)
- 625 Feeding and digesting fiber and tannins by an herbivorous rodent, *Octodon densus* (Rodentia: Caviomorpha)
- 631 L-Alanine uptake by frog (*Rana esculenta*) red blood cells
- 637 Branchial and renal calcium fluxes in rainbow trout (*Oncorhynchus mykiss*) during metabolic alkalosis
- 647 Embryonic metabolism and growth in lizards of the genus *Eumeces*
- 655 Stress affects corticosteroid and immunoglobulin concentrations in male house mice (*Mus musculus*) and prairie voles (*Microtus ochrogaster*)
- 665 Gastric Na^+ K^+ ATPase activity and intestinal urea hydrolysis of the common vampire bat, *Desmodus rotundus*
- 671 Power spectral analysis of short-term RR interval and arterial blood pressure oscillations in lizard (*Gallotia galloti*): effects of parasympathetic blockade
- 679 Oxygen-binding properties of total hemoglobin and isolated components of the terrestrial tortoise *Geochelone carbonaria*
- 685 Evaporative water loss and oxygen uptake in two casque-headed tree frogs, *Aparasphenodon bruno*i and *Corythomantis greeningi* (Anura, Hylidae)
- 691 Distribution and reciprocal interactions of ^3H -melatonin and ^{125}I -thyroxine in peripheral, neural, and endocrine tissues of bullfrog tadpoles
- 699 Cold hardiness in the collembolan *Orchesella cincta* under different food conditions
- 705 Hemocyte aggregation in the oyster *Crassostrea gigas*: *in vitro* measurement and experimental modulation by xenobiotics

- S. G. Bhartur, C. Bookstein, M. W. Musch, R. Boxer, E. B. Chang and M. C. Rao
- G. Kuhn
- T. Sakata and H. Setoyama
- S. Yokata, K. Iwata, Y. Fujii and M. Ando
- 713 Glucose kinetics of the Virginia opossum: possible implications for predicting glucose turnover in mammals
- 721 Effects of plasma glucose manipulations on food intake in white-crowned sparrows
- 727 Chemoreception in the nudibranch gastropod *Phestilla sibogae*
- 737 Heat increment of feeding in adult white-crowned sparrows
- 745 *Rana esculenta* L. Liver Fru-1,6-P₂ase and G-6-Pase activity and Fru-2,6-P₂ concentration after acclimation at 5 and 25°C
- 753 Micro-Raman spectral study of vaterite and aragonite otoliths of the coho salmon, *Oncorhynchus kisutch*
- 759 Effects of proglumide on cholecystokinin-8-induced exocrine and endocrine pancreatic responses in conscious sheep
- 765 Monoamine-containing neurons in the central nervous system of *Megalobulimus oblongus* (Gastropoda, Pulmonata)
- 773 Response of circulating arginine vasotocin and isotocin to rapid osmotic challenge in rainbow trout
- 779 Effects of dehydration on water content, metabolism, and body fluid solutes of a carabid beetle from dry savanna in East Africa
- 789 Exogenous carbohydrate utilisation: effects on metabolism and exercise performance
- 805 Regulation of cell-dependent viscosity in the dermis of the sea cucumber *Actinopyga agassizi*
- 813 Mechanisms of temperature acclimation in the channel catfish *Ictalurus punctatus*: isozymes and quantitative changes
- 821 Influence of plasma prolactin concentrations and age on neonatal immune function
- 831 Aggressive behavior and jamming avoidance response in the weakly electric fish *Gymnotus carapo*: effects of 3,4-methylenedioxymethamphetamine (MDMA)
- 841 Efficient induction by DIF-1 and 8-bromo cyclic AMP of prespore-to-stalk conversion in *Dictyostelium discoideum*
- 847 Ontogenetic development on *Anastrepha fraterculus* (Diptera: Tephritidae): isoenzyme patterns of isocitrate and alcohol dehydrogenases
- 855 Species differences between chickens and rats in chemical properties of adipose tissue lipoprotein lipase
- 859 Cloning of chick cellular retinol-binding protein, type II and comparison to that of some mammals: expression of the gene at different developmental stages, and possible involvement of RXRs and PPAR
- 871 Effect of temperature and salinity on respiratory rate and development of early larval stages of *Macrobrachium acanthurus* (Wiegmann, 1836) (Decapoda, Palaemonidae)
- 877 Heat increment of feeding in Steller sea lions, *Eumetopias jubatus*
- 883 An avian sodium-hydrogen exchanger
- 891 Selective brain cooling reduces respiratory water loss during heat stress
- 897 Bi-phasic allometric growth of the small intestine, cecum and the proximal, middle, and distal colon of rats (*Rattus norvegicus* Berkenhout, 1764) before and after weaning

- 1273 Urinary protein excretion in red jungle fowl (*Gallus gallus*)
- 1277 Comparative study on the behavioral, ventilatory, and respiratory responses of hypogean and epigean crustaceans to long-term starvation and subsequent feeding
- 1285 Metabolism and thermoregulation in the forest shrew *Myosorex varius* (Soricidae: Crocidurinae)
- 1291 Effects of sugar concentration on hummingbird funding and energy use
- 1301 Influence of temperature and activity on the metabolic rate of adult *Drosophila melanogaster*
- 1309 Evolution of grass-cutter (*Thryonomys swinderianus*) inflammation markers: comparison with rabbit (*Oryctolagus cuniculus*) and rat (*Rattus norvegicus*)
- 1313 Modulation of crayfish superficial extensor muscles by a FMRFamide-related neuropeptide
- 1321 Hemagglutinins in mosquitoes and their role in the immune response to *Brugia malayi* (Filarioidea: Nematoda) larvae
- 1327 Sex- and developmental stage-specific gelatinolytic activity in the fleshfly *Neobellieria Bullata* and the regulating role of 20-OH-ecdysone
- 1335 Regulation of body water balance in reedfrogs (superspecies *Hyperolius viridiflavus* and *Hyperolius marmoratus*: amphibia, anura, hyperoliidae) living in unpredictably varying savannah environments
- 1353 Cerebral extraocular photoreceptors in beetles
- 1359 *In vitro* tolerance to anoxia and ischemia in isolated hearts from hypoxia sensitive and hypoxia tolerant turtles

D. H. Spaargaren	1371	Physiological constraints in shrimp cultures
C. Fernandez	1377	Effect of diet on the biochemical composition of <i>Paracentrotus lividus</i> (Echinodermata: Echinoidea) under natural and rearing conditions (effect of diet on biochemical composition of urchins)
E. J. Dumdei, A. E. Flowers, M. J. Garson and C. J. Moore	1385	The biosynthesis of sesquiterpene isocyanides and isothiocyanates in the marine sponge <i>Acanthella cavernosa</i> (Dendy); evidence for dietary transfer to the dorid nudibranch <i>Phyllidiella pustulosa</i>
T. I. Van Pelt, J. F. Piatt, B. K. Lance and D. D. Roby	1393	Proximate composition and energy density of some north pacific forage fishes
A. H. Atmowidjojo, D. E. Wheeler, E. H. Erickson and A. C. Cohen	1399	Temperature tolerance and water balance in feral and domestic honey bees, <i>Apis mellifera</i> L.
G. W. Davidson, H. T. Thorarensen, M. Lokman and P. S. Davie	1405	Stress of capture and captivity in kahawai <i>Arripis trutta</i> (Bloch and Schneider) (Perciformes: Arripidae)
G. G. Thompson and P. C. Withers	1411	Patterns of gas exchange and extended non-ventilatory periods in small goannas (Squamata: Varanidae)
D. A. Shelly and C. P. Mangum	1419	Hemoglobin polymorphism in the atlantic croaker, <i>Micropogon undulatus</i>
G. T. Oliveira and R. S. M. Da Silva	1429	Gluconeogenesis in hepatopancreas of <i>Chasmagnathus granulata</i> crabs maintained on high-protein or carbohydrate-rich diets
C. Agnisola, R. Acierno, J. Calvo, F. Farina and B. Tota	1437	<i>In vitro</i> cardiac performance in the sub-antarctic notothenioids <i>Eleginops maclovinus</i> (subfamily eleginopinae), <i>Paranotothenia magellanica</i> , and <i>Patagonotothen tessellata</i> (subfamily nototheniinae)
